ABOUT US

My name is yosef melkamu, and I am a passionate computer science student in addis ababa university. As a computer science student, you will have the opportunity to explore various programming languages such as Python, Java, C++, and more. These languages will serve as to bring ideas to life and develop software applications that can make a positive impact on people's lives. You will learn how to analyze problems, design efficient algorithms, and write elegant code to solve real-world challenges.

PROJECTS

- * java project
- * web development with front & backend
- * simple to high level game using java and javascript
- * Conway's Game of Life using java
